REALLY BIG SHOW assume command galloping along up top heading into the first of two turns, remained unchallenged slightly quickening the wind aided pace along the backside, rolled along still having no pressure applied by her closest pursuers through the far turn, increased the advantage when urged for more under a right handed crop at the top of the stretch and kept on going to the wire winning comfortably for the wire to wire score. AFLEET FLATTER was isolated rating kindly sitting in midfield, made no movement along the backstretch, started to come with a rally shifting out at the five sixteenths pole being coaxed for run, angled out widest in the five path turning for home could not get to the winner who had plenty left by the sixteenth pole but fought on outside in deep stretch just getting up outside nearing the wire for the runners up share. WHISKEY OVER WINE had the rail position keeping a close eye on the pacesetter through the first bend and along the backside, could not continue to match strides with the front two runners dropping back slightly on the far turn at the quarter marker, shifted to the four path between foes in the mix at the top of the lane and ran on mildly just losing the place share inside late while clearly capturing the show award at the finish line. TUNED OUT tracked the frontrunner on the outside, was roused for more taking up the chase trying to close in on the frontrunner by the quarter marker, shifted to the three path having aim on the leader in upper stretch but flattened out inside runners in the final furlong to settle on the fringes. WINNING AGENDA broke inwards hitting the gate on the break, co-trailed on the outside in the early stages, improved slightly at the half, was under a drive but could not make any gain on the leaders through the final bend and was not a factor in the stretch running. RADAR WOMAN shared the rear inside another in the beginning, could see the field at the half mile marker, was a long last being scrubbed on throughout the far turn and could not get involved in the drive to the wire.
